

Define Problem Statements Template

Phase: Project Initialization and Planning Phase

Project Name: Food Consumer Behaviour Analysis

Team ID: PNT2022TMID01234

Date: 15 October 2024

Maximum Marks: 3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Problem Statements

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	Young Working Professional (22-34)	Order quick, nutritious meals during busy workdays	Delivery times exceed 45 minutes and healthy options are prohibitively expensive	Restaurants prioritize high-margin fast food over transit speed and nutritional variety	Frustrated, drained, and compelled to compromise on health
PS-2	Budget-Conscious Student / Early Career	Find affordable daily meal choices within a strict monthly budget	Hidden delivery charges, packaging fees, and inconsistent surge prices inflate the total bill	Pricing lacks upfront transparency across different food ordering channels	Anxious about overspending and dissatisfied with platform unpredictability
PS-3	Family Meal Planner / Parent	Coordinate diverse dinner preferences (kids, elders, dietary-specific) in one unified order	Multiple separate orders are required leading to duplicate delivery fees and mismatched arrival times	Aggregators lack multi-cuisine bundle discounts and group cart synchronization	Overwhelmed, stressed, and discouraged from frequent dining out or ordering
PS-4	Restaurant Owner / Operations Manager	Optimize menu pricing, inventory preparation, and promotional spend	Customer demand fluctuates unpredictably across dine-in, takeaway, and delivery apps	Lack of integrated visual analytics on consumer demographic dining trends and elasticity	Helpless, vulnerable to high food waste, and missing revenue growth
PS-5	Health & Fitness Conscious Diner	Track exact calorie and macronutrient counts with dietary filters (keto, vegan, gluten-free)	Menu descriptions on delivery apps lack verified nutritional and allergen disclosures	Platforms treat food items as generic catalog records without dietary filtering	Distrustful of food providers and hesitant to order regularly
PS-6	Occasional Weekend Diner	Discover authentic culinary experiences and high-rated emerging cuisines	Search results are saturated with sponsored chain	Recommendation engines lack personalized preference	Disappointed and fatigued by repetitive dining recommendations

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
			listings and deceptive review averages	matching based on past taste profiles
